Why Libella in Estepona?

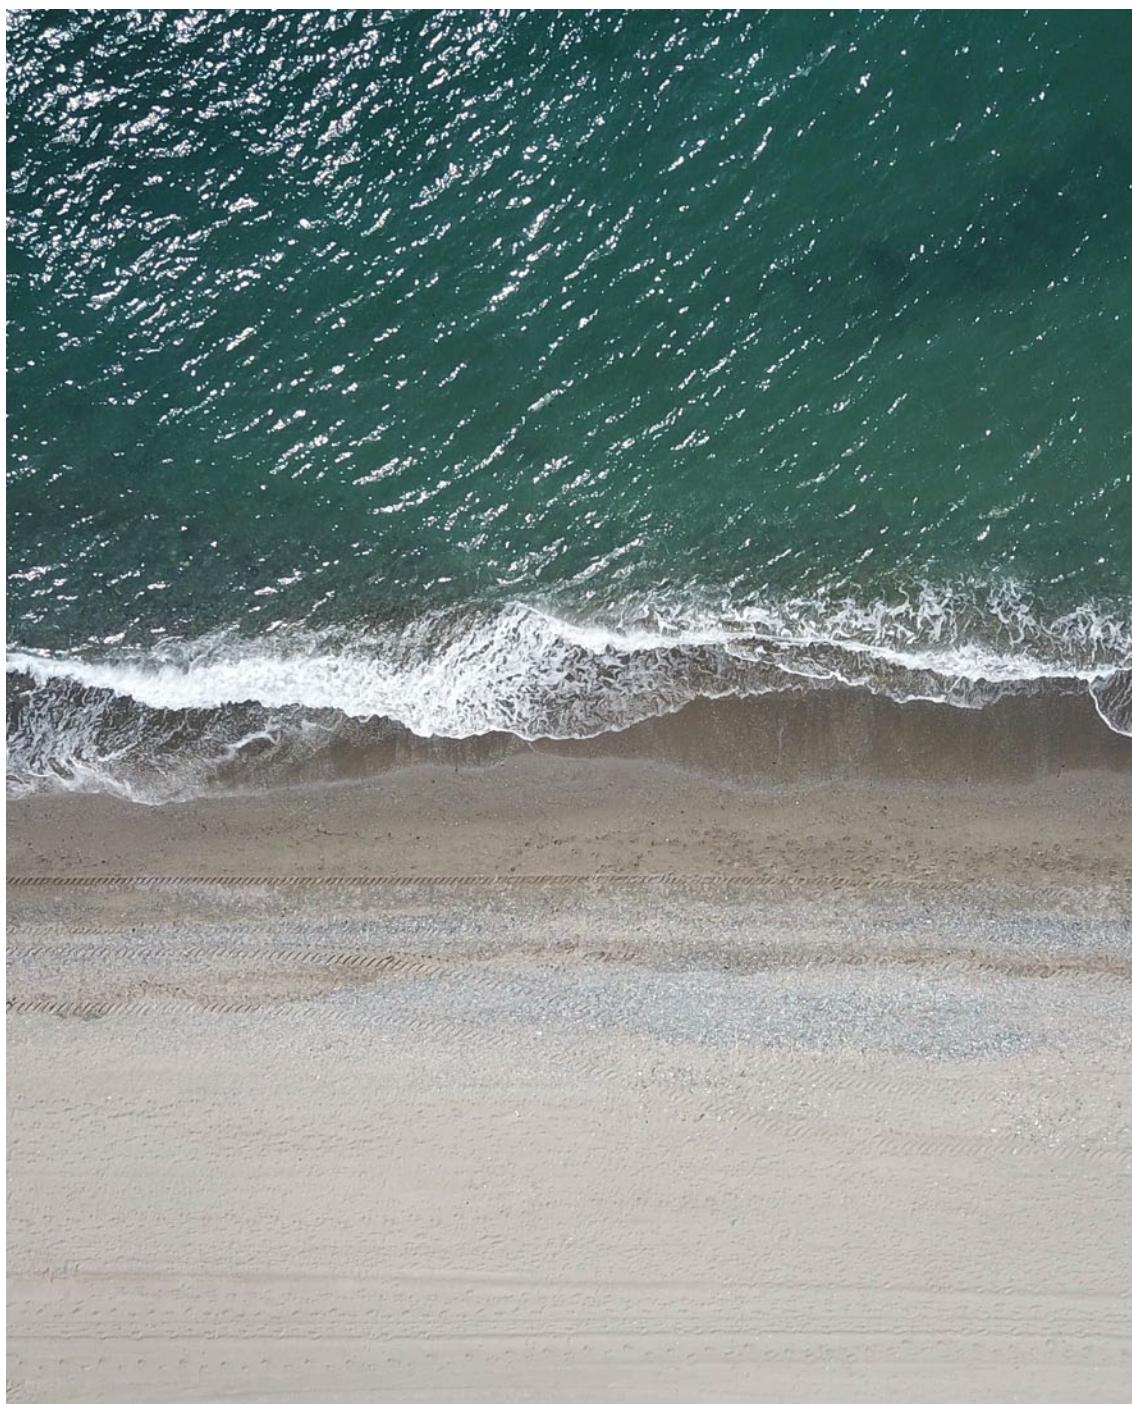

Imagine life between the blue of the sky and the Mediterranean. Presenting **Libella**, your new home in Estepona on a gentle hillside with superb views over the sea and the valley.

The term 'Libella' links the development with libélula, the Spanish for dragonfly, due to the unique shape of the plot of the land, which seems to spread its wings and take flight over the Costa del Sol. The project's design creates a series of elegantly styled terraces with natural silhouettes and featuring the highest levels of exclusivity.

Your dreams have led you this far. Keep going.

The home you've been looking for

At AEDAS Homes our exclusive development features homes with two and three bedrooms adapted to your needs in one of Estepona's finest areas, next to Selwo Aventura. At **Libella** you'll be living in an area where everything you need is within easy reach, close to the beach and with excellent transport links.

Making everything easy to get to and with Estepona only a short distance away

Estepona is one of the most sought-after spots in the province of Málaga. Thought of as the Costa del Sol's new 'Golden Mile', the area's great climate and magnificent beaches win over everyone who pay the town a visit.

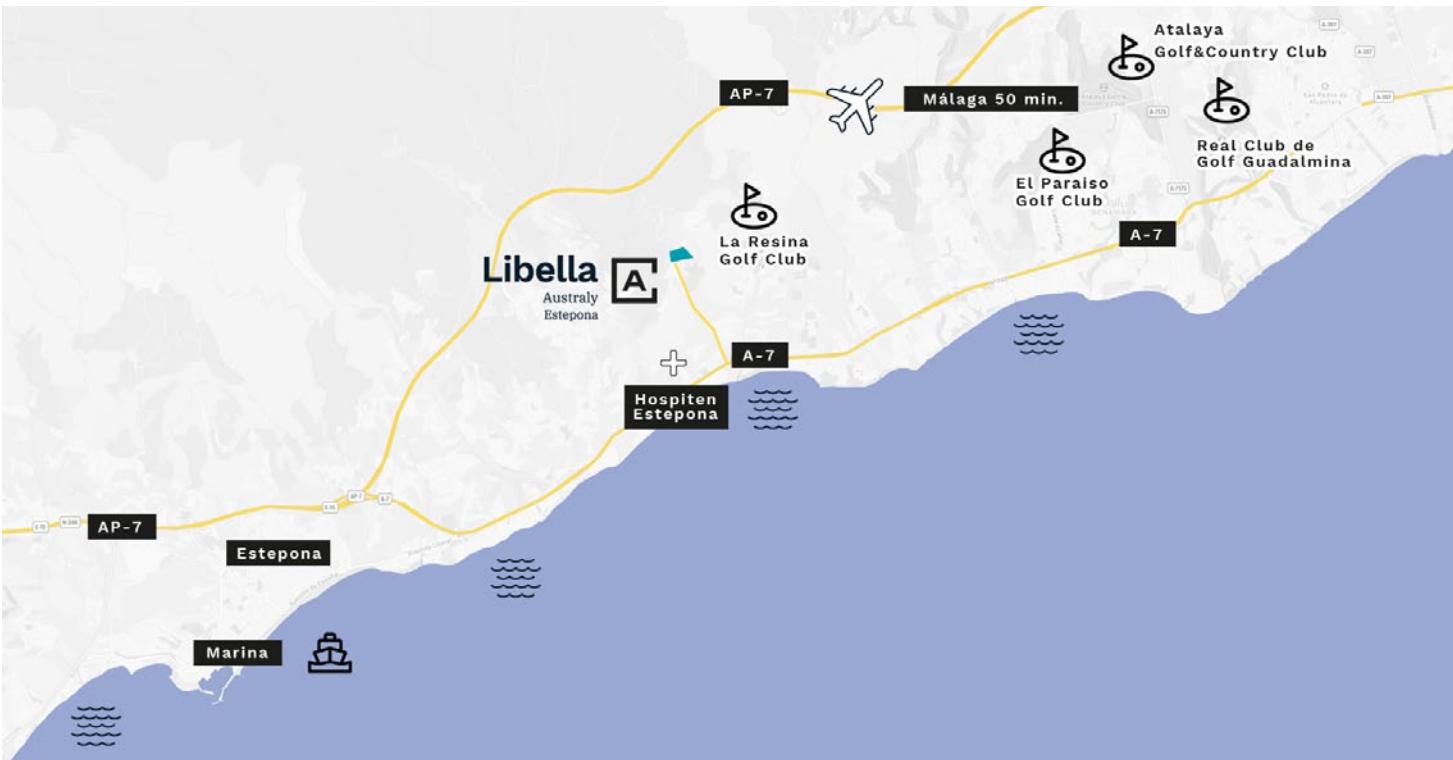

The location of **Libella** is the perfect combination between living amidst nature and the comfort of being only a stone's throw from everything Estepona has to offer. As well as boasting a coastline that stretches for 20 kilometres, the town also enjoys great facilities when it comes to education, shopping and leisure, with options to suit everyone.

The pace of life here is relaxed. Enjoy the comfort, marvel at the peace and quiet, and give yourself over to the exclusive Estepona lifestyle.

A unique setting overlooking the Mediterranean

Libella's fabulous location means you can enjoy every creature comfort that comes from living in an area that has everything. The development is surrounded by areas of greenery next to the Selwo Aventura theme park and not far from La Resina golf club, public and private health centres, and a stone's throw from the beach.

Your new home in Estepona is easy to reach by road: you can be strolling the streets of Marbella in only 20 minutes, one of the most charming towns on the Costa del Sol, with great food, leisure options, culture and luxury shopping. Similarly, only a few minutes from your new home you could be dining in one of Sotogrande's exclusive restaurants or enjoying one of the area's highly acclaimed golf courses.

The fabulous location means that **Libella** is less than an hour away from the city of Málaga by car on the A-7. The vibrant, cosmopolitan city of Málaga is always worth a visit. As the provincial capital, it is a focal point of culture for the area, with more than 30 museums and art galleries, including the Picasso Museum, the Carmen Thyssen and the Centre Pompidou.

With Málaga and Gibraltar airports close by and the AVE train station in Málaga, any destination in Spain or further afield is within easy reach.

“Libélula, the Spanish for dragonfly, comes from the Latin term for the insect, libellula. This Latin word, libellula, is in turn the diminutive of libella, which means the equilibrium reached when two equal weights are placed on weighing scales. The dragonfly came to be known by this name due to its ability to be in perfect balance, motionless while still in flight.

Based on this principle, and taking inspiration from the shape of a dragonfly’s wings, the intention was to create a series of structures that give off this sense of balance and weightlessness, creating a whole that is simple in form yet both bold and delicate in terms of the materials used.

For this reason, facades are stripped of any artifice, and focus is drawn to the quality of the finishes, their implementation and the materials used, with the overarching idea of resolving all the various buildings with the same gesture, adding a sense of uniformity to the development as a whole”.

LVA Architects

02

Elegance, modernity and quality

At AEDAS Homes every detail has been taken care of to ensure the quality of your new home: links with the sky and the sea, unbeatable views where you can take in the sunset every day, cutting-edge architecture and spaces designed with your wellbeing in mind.

In a fantastic location, a place of peace and quiet, with all the benefits of the Mediterranean climate and its mild temperatures, beautiful sunrises and great services all kinds within easy reach.

Large terraces that can be enjoyed all year long

An area designed for maximum enjoyment and relaxation. A place to slow down and feel the moment. That's what we wanted to project onto the terraces at **Libella**.

They're all designed and oriented in such a way to make the most of the Andalusian sunshine, with views you've always dreamed of.

03

Surrounded by nature

Libella's natural setting is part of the development's major added value. Close your eyes and breathe. You're in an area of major environmental heritage, amidst natural vegetation that's in full harmony with its surroundings.

We've designed a spacious and fully adapted garden area with native species that are easy to maintain and need less watering. Your new home in Estepona is committed to integrating nature into every corner of the development.

The space takes on another dimension

The pleasure of watching the sunrise from a bird's-eye-view is a truly unforgettable experience. From your sun-dappled terrace, breathe in the breeze that gently rises up the hill, and admire the view of the Mediterranean coastline.

You can prepare unforgettable evenings under the stars with your friends, read in comfort enjoying the amazing peace and quiet, or simply unwind as you soak up the sunshine.

All these details and many more will form part of all the little big pleasures of your day-to-day life.

That's life at **Libella**.

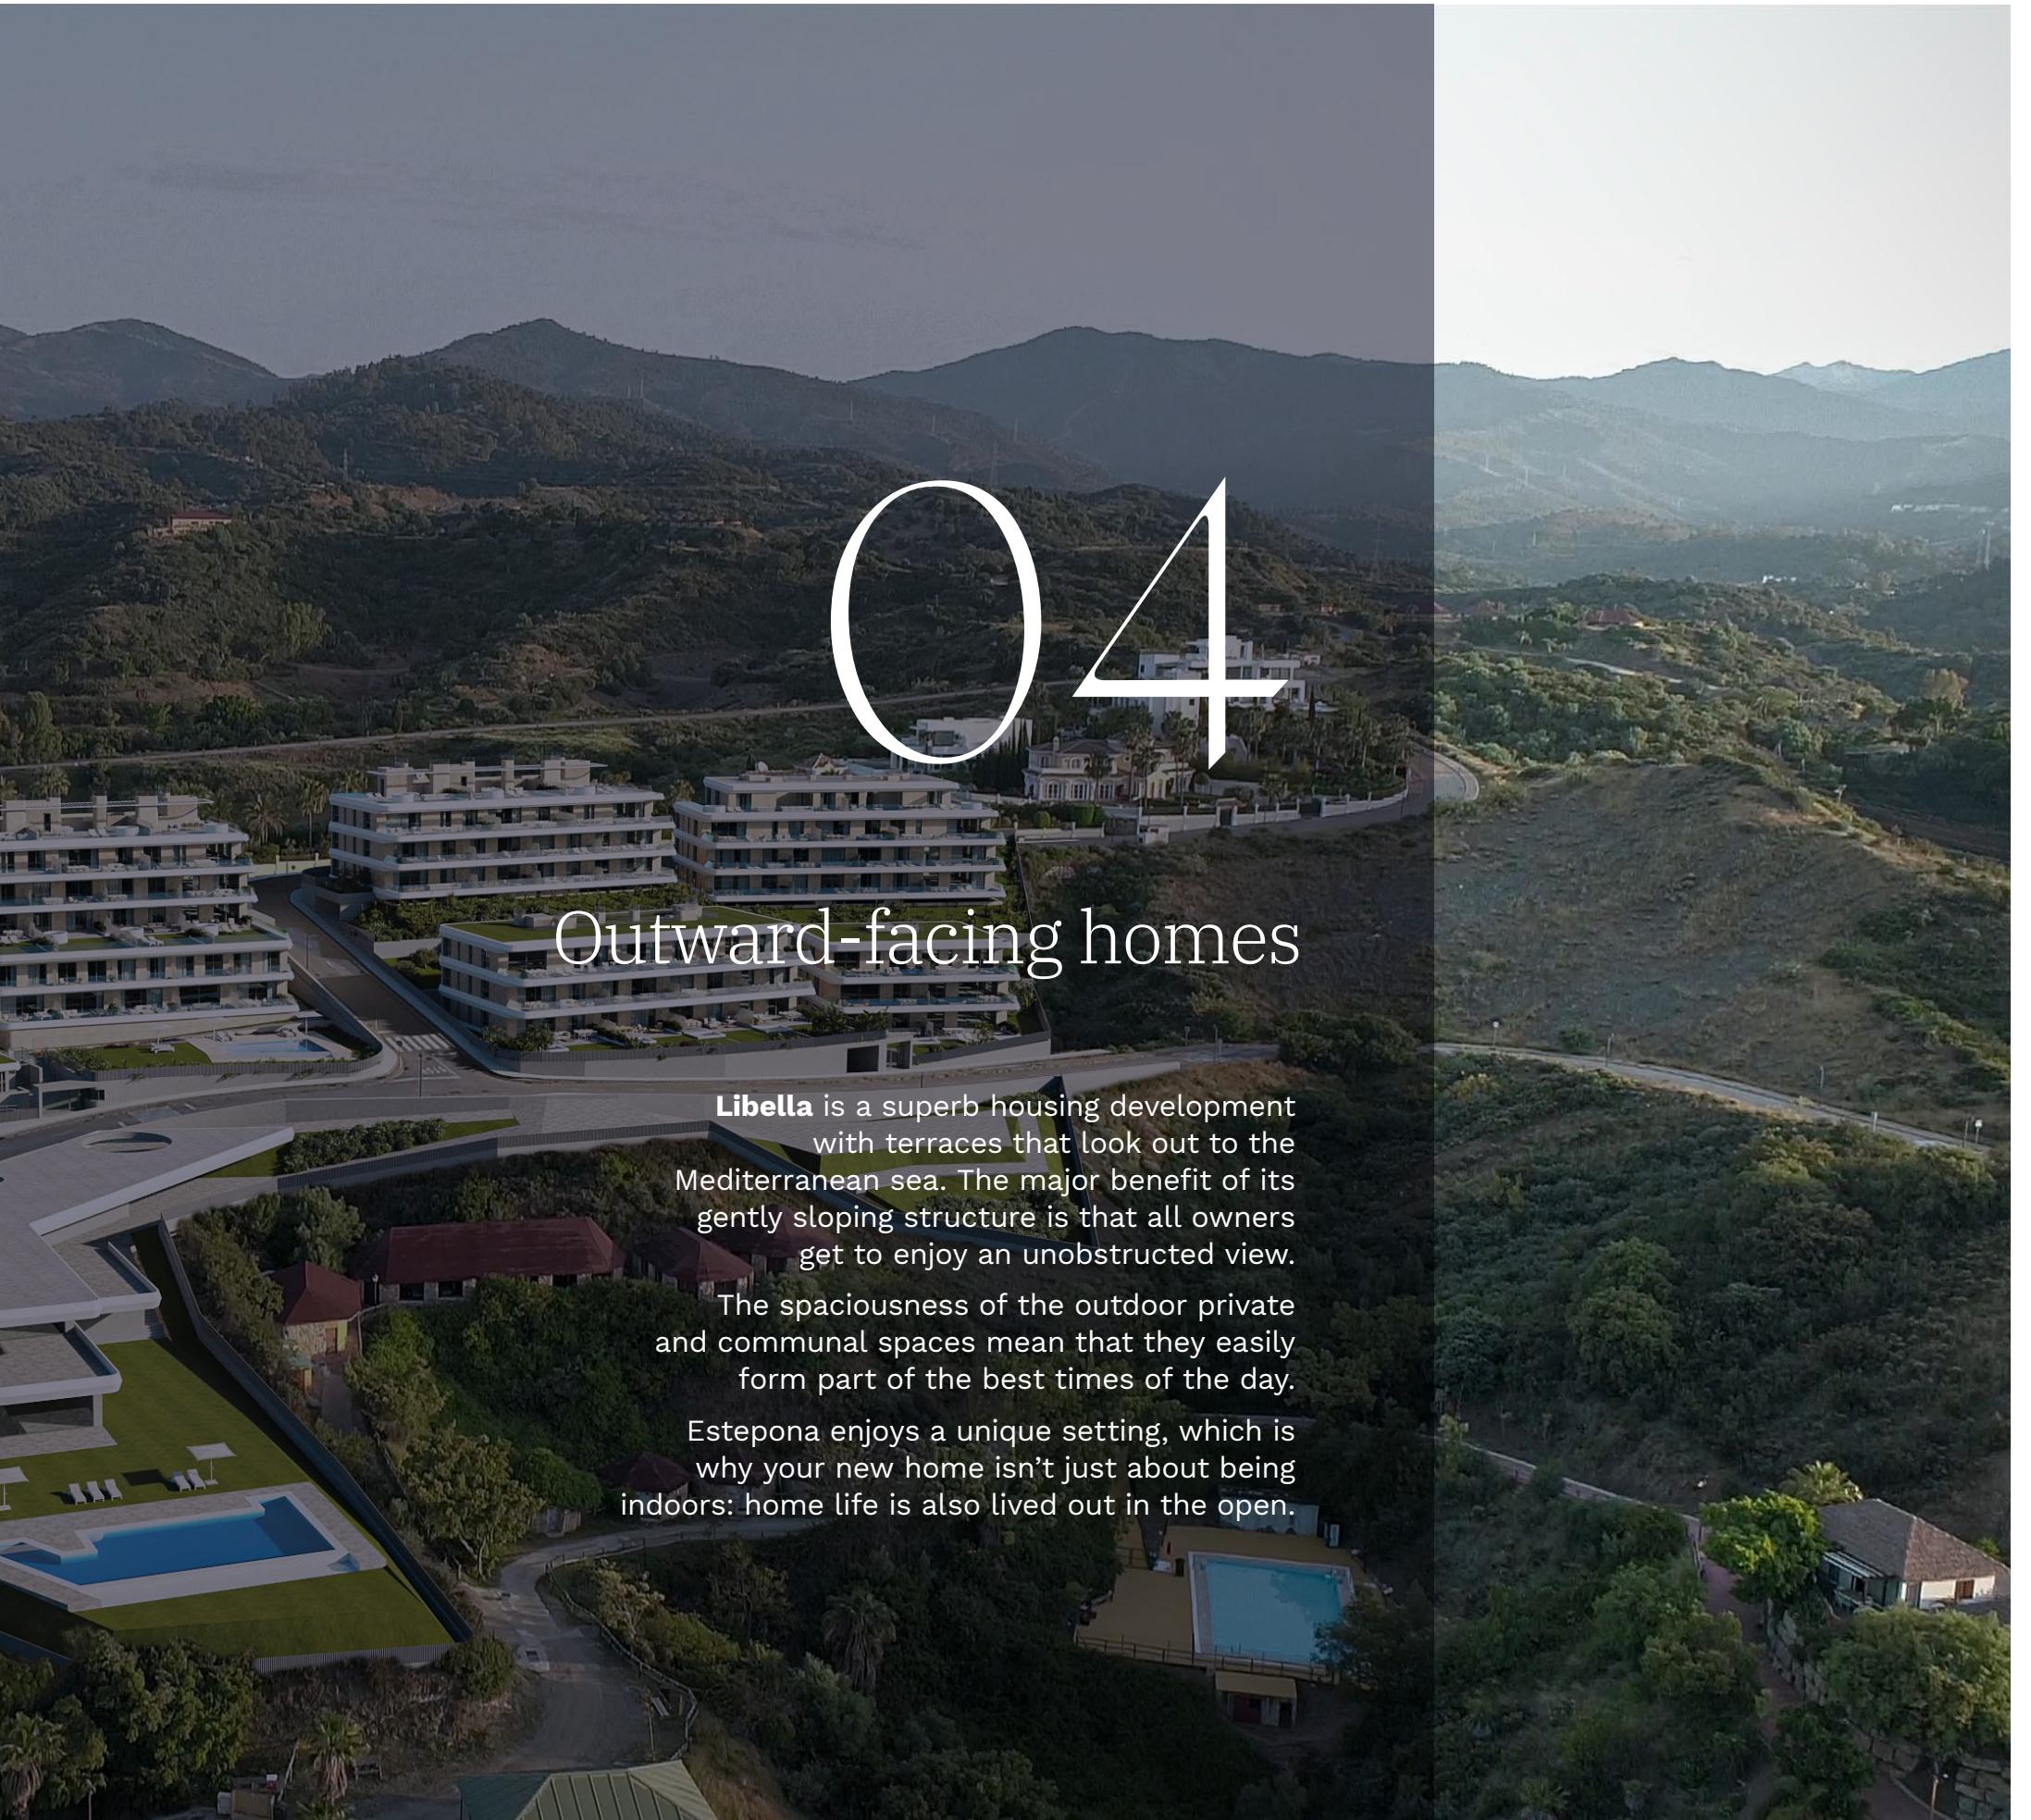

04

Outward-facing homes

Libella is a superb housing development with terraces that look out to the Mediterranean sea. The major benefit of its gently sloping structure is that all owners get to enjoy an unobstructed view.

The spaciousness of the outdoor private and communal spaces mean that they easily form part of the best times of the day.

Estepona enjoys a unique setting, which is why your new home isn't just about being indoors: home life is also lived out in the open.

The various flooring options available mean you can style your home in a way that best suits your taste. Flooring in a range of warm colours, in large sizes, long-lasting finishes and in a style that will last the test of time.

05

Integrated spaces full of sunlight

We integrate spaces with elegance. New trends in interior design and decor tend to combine the lounge and the kitchen into a single living area, removing barriers and walls to make the most of the available space.

The main living area of the home blends seamlessly into the outside terrace area, creating a remarkable sense of continuity and freedom. The oversized windows mean that sunlight becomes a major feature in your new home. It's a light that inundates everywhere in the home, creating a welcoming sense of space, where the feel of the materials, the harmony of the colour scheme and the clarity on display all inspire a sense of wellbeing.

The comfort of enjoying a great pool

Your new home includes a spectacular private outdoor pool so you can unwind at the end of the day and enjoy a refreshing dip in peace and quiet and surrounded by nature.

When you buy your home at **Libella**, you also gain access to the Australy social club, where you'll find a gym, sauna and heated pool for use all year round.

Enter a world of sensations and wake up every morning with renewed energy.

06

Innovative materials

Privacy and intimacy have added value. We build sustainably using the most innovative and advanced materials that guarantee thermal and acoustic insulation throughout your home.

The underfloor heating means that your home is a place of comfort in winter as well as summer.

Everything has been designed and thought through so that the bedrooms become a quiet, intimate and personal space in which to relax. **Libella** is located in a low-density area in terms of other developments, meaning that peace and quiet is assured.

Live, relax and enjoy the silence.

A modern dining room featuring a long wooden table with a thick, natural wood base. Six white upholstered chairs with wooden legs are arranged around the table. A contemporary pendant light with multiple white globe shades hangs above the table. A large window with light-colored curtains provides a view of the ocean and a coastal town. A potted plant sits on the table. The floor is light-colored, and a grey rug is under the table.

Building specifications

Your community

Welcome

Our commitment to you starts right away, which is why we're delighted to share the list of features of your new home with you. Discover all the details of **Libella** and start to imagine the spaces that could soon become your dream home.

What do you need?

At AEDAS Homes quality is a constant and an ever-present goal, which is why we've put so much thought into all the little details in your new home.

Entrances and shared spaces

A lot of thought has been put into **Libella's** communal areas. Interior communal areas will feature porcelain ceramic floor tiles, and the walls will feature a combination of different materials depending on the particular area.

Technology will also play a key role, as the lighting will feature different presence detectors for particular areas and floors, leading to significant energy savings by optimising the use of a valuable resource.

Lifts will have interior finishes and dimensions to match the rest of the development, in accordance with accessibility standards. Doors will be automatic and fitted with an alarm and telephone service for emergencies.

Interior elements

Your development will make you feel proud of your home before you even step foot in it. At **Libella** an enclosed space has been designed with areas where you can share unforgettable moments with your loved ones. The development will feature:

-  Swimming pool.
-  Multi-purpose communal room.
-  Gardens.
-  Spaces for bicycles.
-  Accessibility ramps.
-  Access control.
-  Perimeter video surveillance system.

Exterior elements

Your home includes exclusive access for residents to the Australy Social Club.

This gives you access to:

-  Pool and heated pool.
-  Multi-purpose rooms.
-  Gym.
-  Saunas.
-  Gastrotheque.
-  Gardens.

Your new home

Entrance, lounge, hallway and bedrooms

The entrance, lounge, bedrooms and hallways of your new home will be laid with porcelain ceramic floor tiles. The flooring will be finished with skirting in white to match the interior door and window frames, helping to create a fully integrated decor throughout the home.

Walls will be finished with smooth plastic paint. False ceilings will be fitted throughout, finished with plastic paint.

Kitchen

Preparing your favourite dishes will be much easier in this specially designed kitchen space. Your new kitchen at **Libella** will come with the following fittings and finishes:

- › Porcelain ceramic floor tiles with walls in smooth plastic paint over drywall.
- › False ceiling with smooth plastic paint.
- › Delivered fully fitted with a modern design featuring high and low cupboards.

Will also include the following:

- › Ceramic hob in island or peninsula.
- › Ceiling-mounted extractor hood.
- › Electric oven and microwave oven column.
- › Panel-fitted dishwasher.
- › Panel-fitted refrigerator.
- › Washer-dryer.
- › Counter top and splashback.
- › Sink with mixer tap.

Select

With the Select Service by AEDAS Homes you can customise various aspects of your new home:

- › Choose from different ambience types depending on your personal tastes.
- › Upgrade features and finishes.
- › Fit out your terrace on the solarium level.

Urban option in the bedroom

Bathrooms

Main and second bathroom walls will be finished with ceramic tiles in combination with the porcelain ceramic floor tiles.

False ceilings will be placed and finished with plastic paint. The climate control system will be installed with your comfort in mind, with a false ceiling with hatch in the bathroom for future maintenance of the interior unit.

Mixer taps installed in both bathrooms (thermostatic fitting in main shower), resin shower tray, shower screen and white bathroom fixtures with a modern design.

The main bathroom will include a ceramic basin with vanity unit and counter top in COMPAC quartz, and wall-mounted toilet.

Terraces, porches and/ or private gardens

For maximum security, these outdoor spaces will have non-slip ceramic tiles with skirting in the same material in the required areas.

All terraces will have a water outlet and drainage. They will also be fitted with lighting, electrical sockets and TV aerial socket.

If your home is on the top floor, you can also enjoy a large solarium area, perfect for enjoying the development's spectacular views. A pergola will be installed in the shaded area.

Interior partitions and insulation.

Drywall partitions in your new home will create an optimal surface for applying a smooth paint finish.

- › **Interior partitions between rooms:**
drywall.
- › **Partitions between homes:**
drywall and acoustic insulation panelling.
- › **Partitions between homes and communal areas:**
drywall and acoustic insulation panelling.

Interior door and window frames

AEDAS Homes also ensures a quality finish on interior door and window frames in your new home, ensuring every detail is to your satisfaction.

- › The home's main entrance door will be reinforced with a lacquered interior finish and fitted peephole.
- › The property's interior 220cm doors will have a white lacquered finish and chrome handles, giving the home a modern, elegant appearance. In general doors will be hinged, except in cases where sliding doors are advisable for improved use of the rooms they give access to.
- › Hinged wardrobe doors that make full use of the space with white lacquered finish matching the rest of the joinery. Bedroom wardrobe interiors will be modular, finished in melamine with hanger bar, shelf and drawers.
- › Main bathrooms with glass doors.

Urban option in living room

Installed features

Plumbing and sanitation

The plumbing installation will include water intakes for each appliance in bathrooms and kitchen (sink) and for electrical appliances in the kitchen and laundry area (dishwasher and washing machine).

Your home will have a general shut-off valve and independent shut-off valves in each wet room.

All homes will have hot water supplied from a heat pump water heater with maximum energy efficiency.

Each sanitary fixture in the home will be plumbed in to the water system, with PVC downspouts installed in the chambers on the building's side with acoustic attenuation.

Heating/Climate Control

To make sure you enjoy the highest levels of comfort and wellbeing, your new home will be fitted with underfloor heating (except in bathrooms), using electrically heated hot water.

This method uses inertia radiators to provide a steady heat supply, saving energy by using low-temperature hot water and allowing for more free space in the home when compared with a traditional radiator system. Temperature control in the main rooms is by thermostat.

The home will also have a network of conduits to distribute cold air using supply and return vents in the lounge and bedrooms.

Elegance option in bedroom

Electricity/ Telecommunications

Your home will be fitted with the electrical and telecommunication sockets required as standard, as well as a video intercom entry system connected to the building entrances and access to the site as a whole.

Bathrooms, kitchen and hallways in your home will be fitted with LED lighting.

Ventilation

Your home will include a ventilation system to ensure the air is always fresh, in compliance with the Technical Building Code.

The building

Facade and roof

The building facades are designed as a cavity wall with a brick exterior and drywall interior. They will be fitted with a combination of prefabricated cladding elements.

The composition of the facades, and the design of the terraces, will provide a modern and attractive image of the building. The finishes will combine the thermal provisions with the most cutting-edge designs, fully adapted to the needs of the 21st century.

The facade will also have a thermal insulation cavity, ensuring significant energy savings and increased comfort inside the home.

The roofing has been designed for their intended use, guaranteeing that they are watertight in all cases.

Exterior finishing work and glazing

The exterior window frames and glazing will comply with the Technical Building Code, specifically the Basic Energy Saving Document and the Noise Protection Document, increasing the level of comfort inside the home. **Libella** will be fitted with:

- › Aluminium frames with thermal break combined with different opening types depending on the location.
- › Double glazing with dry air chamber.
- › Aluminium-slat roller blinds with injected insulation, motor-operated in lounge and bedrooms. Colour similar to that of exterior frames.

Elegance option in main bathroom

Structure and foundation

Your new home will have a reinforced concrete foundation with reinforced waffle slab and above-grade slabs –calculated as per current legislation and the Technical Building Code-. The foundations will comply with the conclusions of the geotechnical study.

Stairs and landings

Stairs and landings will be laid with ceramic tiles and matching skirting, with walls finished in plastic paint.

Garages and storage rooms

Garage entrances and exits will be automatic, with safety sensor device and remote control.

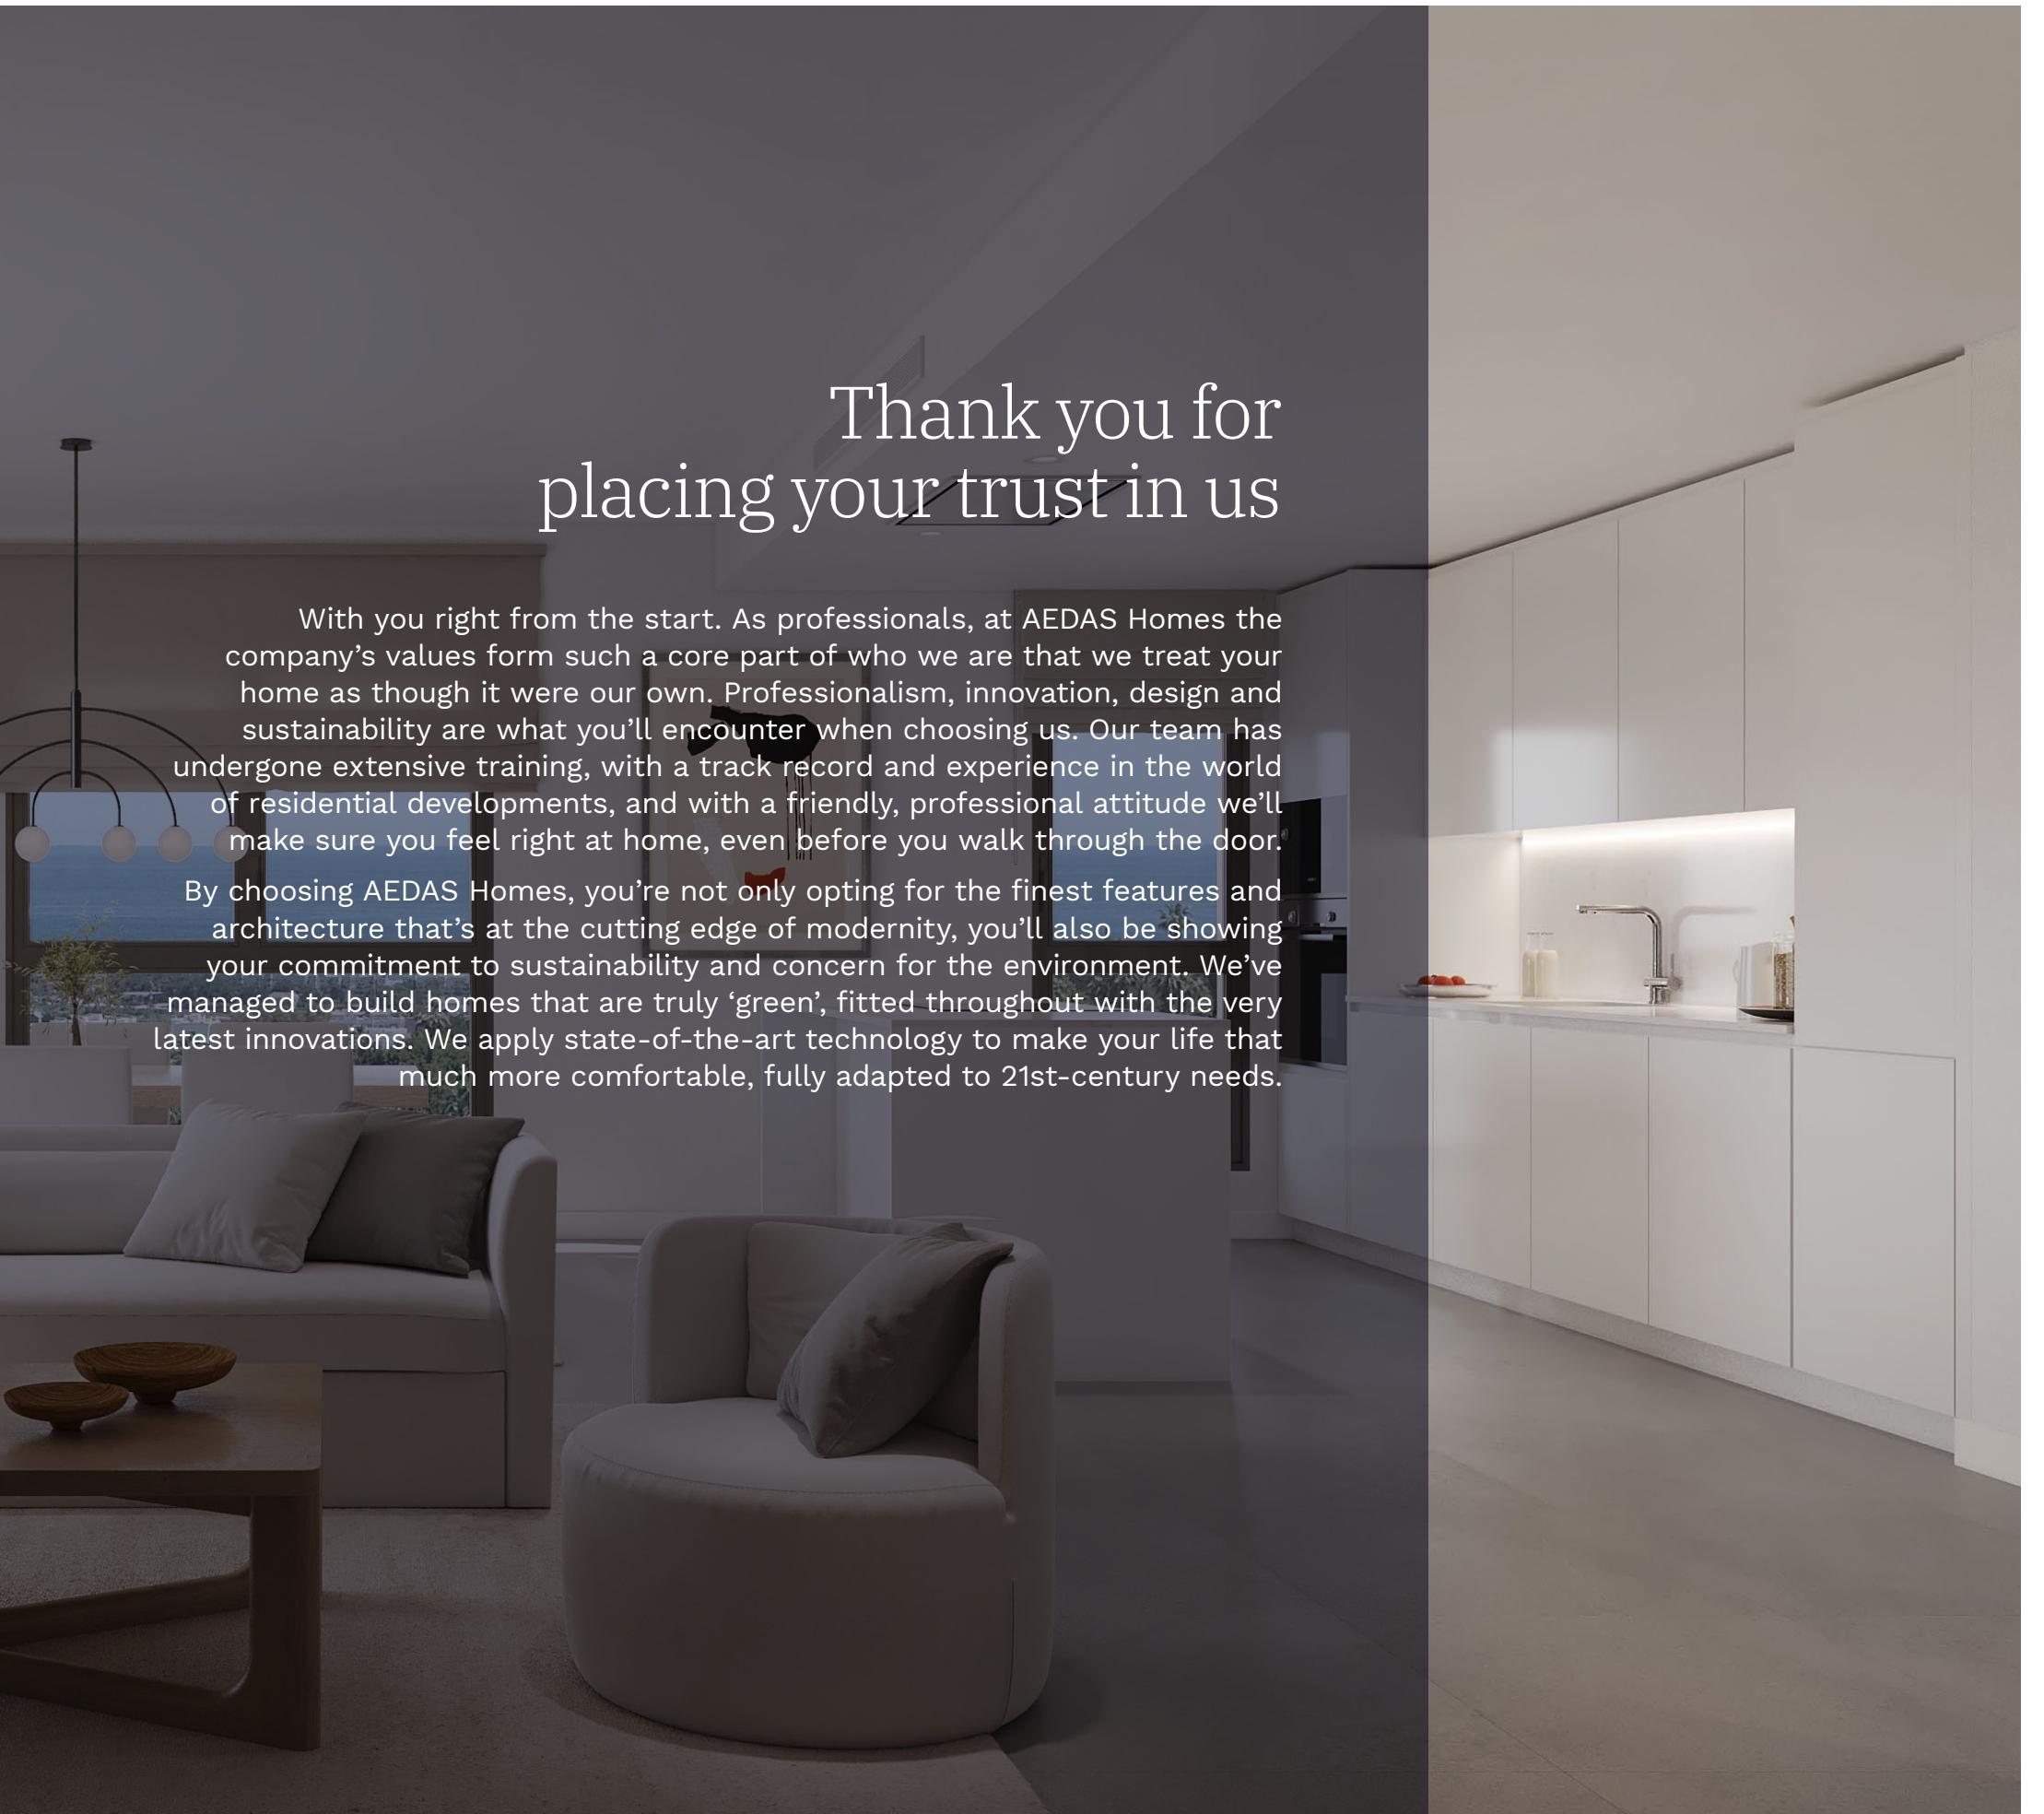

Storage rooms will be painted and fitted with a metal door, in compliance with regulations due to their location.

Thank you for placing your trust in us

With you right from the start. As professionals, at AEDAS Homes the company's values form such a core part of who we are that we treat your home as though it were our own. Professionalism, innovation, design and sustainability are what you'll encounter when choosing us.
